

HEARTH PLANNER

Helping You Make The Perfect Choice

HEAT & GLO™

A Heat & Glo™ fireplace is a wonderful investment, adding value to your home, comfort for your family, and beauty to any room. There are a variety of styles to choose from, and this guide will help you narrow your Heat & Glo selection before a visit to your local showroom.

YOUR PROJECT

MY PROJECT IS:

- New construction** — Starting from square one to enhance your space with a new hearth product.
- Retrofit existing fireplace** — Replacing an existing hearth with a new, modern choice.
- Home remodeling** — Remodeling your house/room and want to beautify it with a hearth product.
- Update existing hearth** — Your existing hearth needs a serious update to better blend with your space.

I'M LOOKING FOR A(N):

- Fireplace** — A hearth foundation consisting of a hearth, firebox, mantel and chimney.
- Insert** — Updating your current fireplace with an insert into the existing masonry to give you a new source of heat.
- Stove** — A freestanding heating unit that provides desired warmth for areas where a fireplace may not be an option.
- Gas Logs** — Used in a fireplace, consists of a gas burner made to resemble a log to simulate a wood-burning experience.
- Stone/Mantel/Cabinet** — The various surrounding material around your hearth.
- Uncertain** — Still not sure? Ask a hearth expert about our Fuel Matrix to get a better idea.

I'D LIKE TO HEAT MY HOME USING:

- Wood** — You like the hands-on approach to loading, stoking and cleaning your hearth product.
- Pellet** — You appreciate hands-on, but like the idea of controlling it with a sustainable resource.
- Gas** — Flip-of-the-switch convenience with gas as the primary source of power.
- Electric** — Flip-of-the-switch convenience with electricity as the primary source of power.
- Uncertain** — Still not sure? Ask your local hearth expert or use the Fuel Choice Matrix at heatnglo.com to learn more.

YOUR ROOM

I WANT TO PLACE THIS HEARTH UNIT IN A(N):

Living Room Family Room Media Room Bedroom Kitchen Bath Outdoors Other

THIS HEARTH UNIT WOULD GO PERFECTLY IN A(N):

Inside Wall Outside Wall Corner Uncertain

THIS PARTICULAR ROOM'S STYLE IS:

- Traditional** – Might resemble an old-fashioned cabin or simply embraces a rustic, cozy atmosphere.
- Contemporary/Modern** – May range from a New York-style loft to something more avant-garde.
- Transitional** – The warm combination of traditional and contemporary décor elements.
- Uncertain** – Still not sure? Use the Idea Gallery at heatnglo.com to help determine your ideal décor.

YOUR HEARTH SOLUTION
